QAS - Molonglo Conservation Group Catchment Art Exhibition

2025

"The Molonglo Catchment Unearthed - the role of soils in our lives"

Dear artists,

This exhibition encourages people to think about the role of soils in our lives in the Molonglo catchment – unearthing knowledge through the depiction of histories and stories about the role of soils and how we and they have influenced change in our catchment, for better or for worse.

We want artists to think about how soils impact our lives, especially how we engage with the land and its waters in our catchment over time. Perhaps, more to the point, how our lives are affected when soils that have supported all forms of life on the southern tablelands for millennia change.

Sometimes the impact of soils in our lives is easier to perceive when we think about what happens when the positive influence of soils ceases. For instance, when soils can no longer hold enough water to support life, what happens to the land and vegetation, our rivers and streams, the animals and plants when soils have lost their resilience?

What drives that resilience? Resilient soils are vital for the health and wellbeing of our environment, economy and culture through strong farming and agricultural production, resilient forests, woodlands, grasslands and wetlands, balancing the environment from the effects of our urban lifestyles in a changing climate.

Think about our surrounding urban and rural environment. If soils are degraded, are washedQueanbeyan and Canberra's rivers and streams, what happens to our drinking water, the vegetation shading the land on which our houses are down storm water drains or erosion gullies into built, our parks and gardens, our crops, and grazing land? What happens to the aquatic plants and animals: the birds, water bugs and insects in the wetlands and along the riverbanks when soil sediment infiltrates our rivers and streams?

Soils affect the health and wellbeing of people and their environment - personally, through the beauty of flowers and nourishment of vegetables in our backyards. Communities benefit from recreational parklands and reserves. The environment benefits from corridors formed through stepping stones of trees, shrubs and grasses, along rivers and streams, connecting plant and animal species across the suburban or city landscape.

I look forward to seeing what is unearthed.

All entry forms and artworks should be delivered to Queanbeyan Art Society gallery.

Kind regards and happy painting

NOMINATION FOR ELECTION TO THE QAS

MANAGEMENT COMMITTEE 2025 - 2026

**1-00pm, Saturday 24th May, 2025 at The Queanbeyan Art Society Gallery,
6 Trinculo Place, Queanbeyan**

PRESIDENT'S PALETTE

THIS monthly exhibition suffered through lack of entries because it was a long weekend for the entries and the successful Capital Plein Air week. The committee will need to look This programme if it falls on the same weekend. Perhaps extending entries or allowing entries to come in earlier. I would as members to come forward and put their hand up for the **QAS MANAGEMENT COMMITTEE FOR 2026**. The Society has always had a strong committee hence the success and it is pleasing we have many more new members coming on board.

It would be pleasing if we had more Sponsors for our Exhibitions, please contact the Secretary if you can help!

Barry Cranston

SECURITY AT GALLERY

Hello everyone,

Last Thursday, Scott from Security One attended the gallery at 9:00 AM in the morning to assess the system and fix the problem. Scott went through all the zones as asked and found in the oil

painting room when he opened the zone case that there was corrosion on the terminals, and the batteries therefore weren't working because there was a build up of corrosion. I asked Scott about that zone and he said it was an old sensor, so I asked him to put a new one in thinking, well we're

going to have the problem again if we leave it as it is now. I'm sending some photographs with this email to show you the corrosion. This zone is Zone 11 and every time, the multiple times we had calls from security one, they always mentioned zone 11. It's in the oil painting room. Security One is on the ball for us and I'm grateful for their

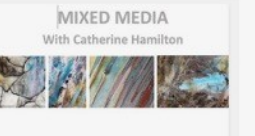

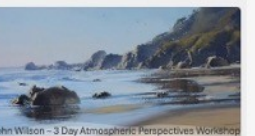

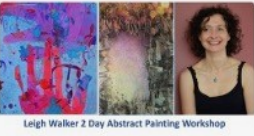

contacts. The bill has come through to Oliver and the cost is \$334.50.

I believe Scott was there for 2 1/2 hours. Sorry I haven't sent this message through to you before now, but we can resume putting the alarm on from now on. I'll text the people who open the gallery.

Thanks, Rosanna.

QAS 2025 Workshop Program

I have been communicating with our wonderful member Maxine Sumner about her two Yupo workshops. Sales have been very low, just 2 for the first and 3 for the second workshop. We have decided to cancel these workshops as they are not viable.

And finally, I will be travelling from late June to early August. In that time we have two workshops, back to back with watercolour artist **Chan Dissanayake**

We will need to get some QAS members to run this workshop. I am happy to brief them on how to do that but we have lots of helpers who have assisted me who could easily run them.

Happy to discuss.

Warm regards
Andrew
